## FACTIVE FOCUSES ON THE PILOT TESTING

During last semester, **FACTIVE partners worked on the completion of the FACTIVE IO4, the Handbook**. An important tool that compiles learnings and knowledge that attempts to facilitate the Flipped Classroom model as one of the latest pedagogical methods for the XXI century.

The Handbook analyses several methodologies and teaching techniques and proposes FACTIVE methods by providing several pedagogical resources according to multiple classroom realities.

Furthermore, the consortium is now deeply involved in the **IO5, the pilot testing** of this FACTIVE methodology.

Up until now, the repartition is done, the testing process designed and evaluable items agreed.

At the moment whole partners have started or will start soon on the **implementation of the methodology directly with students**.

## 3<sup>rd</sup> FACTIVE TRANSNATIONAL PROJECT MEETING

The **FACTIVE partnership** made it possible to **meet under a physical format since the beginning of the project, on March**, in Brussels.

During the meeting, several partners presented the **advances of the IOs** they lead and the rest of the partnership made contributions taking into account the project is now on its final phase

The meeting **focused on the IO5**, the pilot testing of the whole FACTIVE methodology by all partners, **and on the IO6**, the FACTIVE community practice.

The **final meeting** will take place in September in Portugal. Read more about the event [here](#).
